Dear Harold;

Nice to hear from you and learn that you are doing well though overloade with work which always seems to be the case. By now you should have gotten the Penn Jones news letter with the article on Mrs. DeMorenscheldt.

Enclosed is a tape of Mark Lane on the local Michael Jackson program. It is a couple of weeks late but is the only thing I've heard since the LA Times wrote the article on the House Committee. I found it interesting.

How have you and Jim made out with the Committee or have they gotten in touch with you again?

Again give my best wishes to Lil and Jim and let me hear from you when you have time.

Best,

Paul
